Techniques Box breathing, counting to ten and back, three-point turn, "I" statements, the polite wave

Tools Turn signal, hazard lights, stress ball, ice scraper, journal, the horn (sparingly)

Writing & Public Policy

Founder & Writer, *Honest Graft*
honestgraft.example.com · 2026–present
- Write a newsletter on Chicago merging etiquette.
- Investigated who really has the right of way at a four-way stop, using dashcam footage and a protractor.
- Self-host the site under my desk.

Projects

lennyresume · LaTeX resume template
github.com/lennyitb/lennyresume
- Wrote the LuaLaTeX class this resume is set in. You are looking at it.
- Drew the credit mosaic above from a course list and a hand-drawn text map, so the left turn incident sits where I put it.

Honk Translator · Embedded project
- Built a dashboard device that classifies car horns as friendly tap, warning, or fury, with 71% accuracy.
- Added a cooldown that locks out my own horn for ten seconds after any honk classified as fury.
- Logged every honk on the commute to a chart that helps to track my progress and manage my feelings.

Turn Signal Reminder · Intro to Projects
- Captured the schematic and laid out a PCB in KiCad for a chime that sounds when you change lanes without signaling.
- Populated and tested PCB.
- Escalated the chime to a recording of my mother after the third offense.
- Designed + 3D printed enclosure, mounted it under the dash, wired, and tested on the Kennedy Expressway.

Serenity Now Button · Anger Management II
- Counted to ten in VHDL on an FPGA: the LEDs count down before you are allowed to reply to the email.

Experience

Crossing Guard · Level 1 Lollipop
Lincoln Park, Chicago, IL ·
3 school years, 2022–2025
- Guided kids age 5–12 across a four-lane road; lost none of them.
- Managed diverse traffic and behavioral needs, practiced safe intersection management through rain, sleet, and Cubs home games.
- Stayed calm when it was −20° outside and a minivan rolled the stop sign.
- Walked parents through the drop-off loop in the right jargon, which often made their 25-minute wait feel like time well spent.

Drive-Thru Headset Operator
Big Beef Drive-In,
Route 66 · 3 summers, 2023–present
- Took orders through a speaker that only plays static, and repeated them back calmly.
- De-escalated 40+ incidents involving a missing ketchup packet.
- Ate a lot of fries with friends in the walk-in freezer.
